1. The first part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them. The list includes names such as "J. H. Smith", "W. J. Jones", and "A. B. Brown", among others.

[Faint handwritten notes at the bottom of the page]

541 *And. catenata*

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation

Commersoniana

Dec 17

Hempstead Reservoir

We had Dec 17 *Panicum* green & fresh
 some to be still young - *P. autumnale*,
Commersoniana *longifolia* *Commersoniana* *virginica*
 & others have had temp down to 15°
 at least 3 times - then ice on Reservoir

Jan 7, 1922 Kn. Steel Ridge. 44

Notes this year!

From autumn - basal leaves apparently
still growing. Fresh & green though
we had 3 weeks of successive
with temp of 60 & high wind.

Heads of X₁ flowers & pincus canadensis
still green & complete.

April 14 - In flower Danielian
 antennae
 some pincus leaves

January 27 I went to N.Y. Hospital.
Left hospital Feb 27, going direct
to Aiken S.C.

Arrived home Hempstead April 13

April 15 Donald brought some Arbutus
from Medford. Some flowers
bright pink petals.

April 17, 1922. Miss. 45

Populus tremuloides in flower

" *glandulosa* sp. 5' tall

April 23. 1922. Miss. 45

Vegetation in the swamp

Some of the plants are:

April 24. SW. about Hance's at River

Walk in woods & swamps of swampy
large woods mostly in aspect except
for trees & scrubby trees on Red
Hills & Small trees 1/2 to 1 inch long
on wet black clay.

Euonymus alatus - 1/4 to 1 ft. tall.

Cornus sp. - up to 1 ft. tall.

Thymus sp. - 1 ft. tall. In flower

Thymus sp. - 1 ft. tall. In flower

Vaccinium - high & low bushes. In flower.

Acid rubra - In flower.

Salix cordata. Cakes 2 1/2 to 3 in.

Urtica procumbens. Leaves 1 to 2 inches long.

Skunk cabbage. Some leaves 1 ft. long.

Amelanchier - One in flower. Leaves unfolded.

Rhus - Leaves 1 inch long. Flower buds

April 24, 1922 Hopstead Reserve, California 146

Sheep Laurel - Small flower buds.

Viola pringlei in flower

" acutifolia "

" frutescens "

Arceuthobium quercifolium "

Erythronium thibeticum

Salix lasiolepis Leaves 1/2 to 1 inch long

Populus tremuloides 7 seed-sheds withered

Rumex crispus 7 leaves & buds

Alder leaves an inch long. Catkins withered

Sanicula umbellata - 3 to 5 inch tall in bud

Carex peruviana in flower

" variegata Just opening "

" stricta Spikes 1 to 2 inches long

" polymorpha " 1 to 1 1/2 " "

" vestita " 1 to 1 1/2 " "

not all in flower

Carex hillebr. Just in flower. Rare.

Heaven!

1197 Carex polymorpha

April 26. 1942 *Mimosa pudica* #7
 Very pedate - a few small plants in flower
 Fertilized. some spikes, but not yet
 in flower.

April 27. Words about plants date
